

COMPLIANCE TRACKER

Never Miss Any Compliance

CUSTOMIZATION

The application can be customized for any environmental law, safety rules, HR regulations, industrial protocols, and finance & account obligations etc.

CONFIGURE ALERT FREQUENCY

Three times alert notifications are generated as per customized duration prior to the due date and sent to the responsible users via email.

UPLOAD ANY FILE

Compliance evidence file can be uploaded in any format including word, excel, PDF, image etc. There is no restriction w.r.t. size of file and type of file.

PAPERLESS TRANSACTION

You can share the data via email. The entire process of reviewing & approving the compliance is paperless.

ANY LAW FROM ANY COUNTRY

The application works for any law from any part of the world including legal obligations, other requirements, company's own charter requirements.

ESCALATION ALERTS

The system sends auto-generated escalation notices to the user as per hierarchy if the compliance is not closed by the responsible user in the due time.

EXPORT DATA

Compliance management data (any size) along with the status can be exported easily with a click into an excel sheet, PDF file, and print.

MOBILE ACCESS

The user can access compliance data, status & evidence with a smart phone application for android and IOS.

COMPLIANCE TRACKER is a cloud-based application. No expertise is required to make the application function. You can access it from anywhere through any device. Above are unfolded features & benefits of the application and support from our expert team to make the system works. Even you need to pay one time for a lifetime. No user-wise or site-wise fees.
