

COMPLIANCE TRACKER

Never Miss Any Compliance

ANY COUNTRY – ANY LAW

The application works for any law for from any country. You can add finance, taxation, industrial law, environment & safety law, human resource and contract labour law.

LOCATION WISE COMPLIANCE

You don't need to buy a separate license for another location for compliance tracking. You can add a new site/ location easily in the future and monitor compliance for each site.

ANY FILE – ANY SIZE

You can upload any file type as evidence of compliance including word, excel, power-point, PDF, image etc. Even there is no restriction on file size to upload.

PAPERLESS TRANSACTION

All evidence are electronically maintained and easily retrievable at any time from anywhere. A paperless system helps to protect the environment.

UNLIMITED USERS

You can add an unlimited number of users. You can disable and activate a user in future easily. This application has no restrictions considering the number of users.

ESCALATION MATRIX

System-generated notice is sent to the responsible person before the due date of compliance. Another escalation alert is sent according to the set alert frequency.

INTERACTIVE DASHBOARD

The dashboard indicates a real-time overall summary of compliance actions. These data are plotted into charts for easy and quick understanding.

VIDEO TUTORIALS

Video tutorials of the compliance tracker help to understand the functioning of the application. Video tutorials are short videos to solve troubles and save your time.

COMPLIANCE TRACKER is a cloud-based application. No expertise is required to make the application function. You can access it from anywhere through any device. Above are unfolded features & benefits of the application and support from our expert team to make the system works. Even you need to pay one time for a lifetime. No user-wise or site-wise fees.
