

PERMIT TO WORK

Manage, Share & Monitor PTW efficiently

CUSTOMIZED PERMITS

Your existing contents of the safety permit will be set-up including checkpoint, hazard, PPE requirements & permit flow etc.

TIME-BASED ALERTS

The system generates alerts based on the time for the closure of the permit, asks for renewal or closure of the permit.

EXPORT PERMIT DATA, REPORT

You can export of permit data into excel. Interactive dashboard and report contents help you to conclude future action plan.

SHARE VIA EMAIL, TEXT & WHATSAPP

The safety permit is auto-shared via email and WhatsApp with all relevant personnel. A text message is also sent to the executor of the permit.

CLONE PERMITS

Using the clone option, the past permit will be regenerated with a new permit ID. It is very simple, quick and time-saving to issue.

BETTER JOB PLANNING

You can generate permits in advance for better shut-down job planning. These permits are visible on the dashboard.

REDUCE PERMIT ERRORS

A safety permit is generated with certain pre-defined criteria that help to reduce errors in the permit.

ELIMINATES ISOLATION VIOLATIONS

When a LOTO permit is linked with other safety permits, LOTO permit restoration is NOT possible without the closure of another permit.

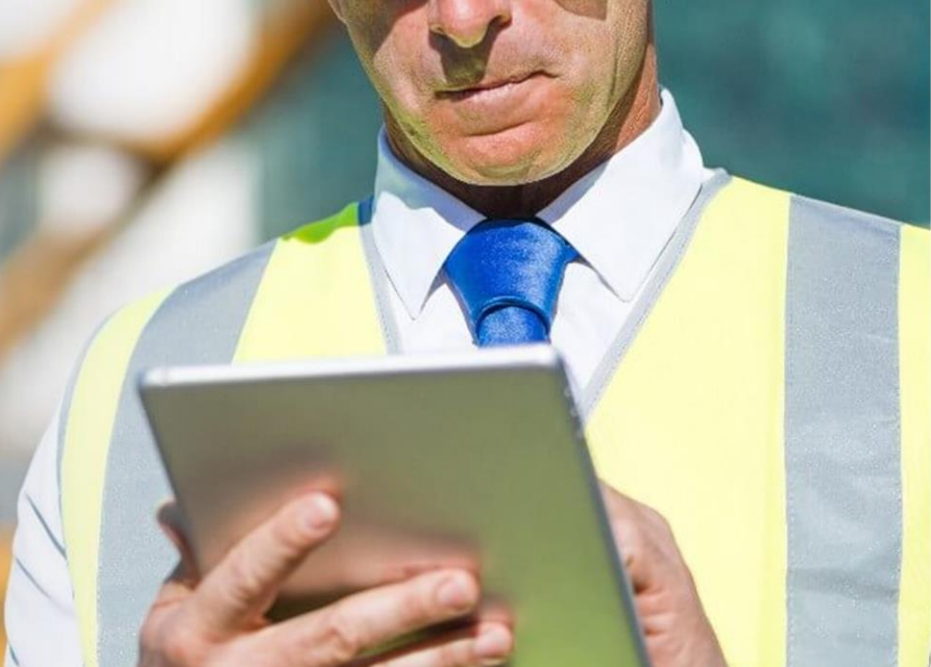

Permit To Work software is a cloud-based application. You can generate, review and approve safety permits electronically in simple & easy ways. Regenerate safety permits with a click that saves a lot of time. You can send safety permits via email, text message or WhatsApp. Compiling & monitoring safety permit status becomes easy. You can generate hot work, cold work, confined space, height work, isolation, lifting, hazardous chemical permits easy etc.
